

Greetings, this station, (KLOVE) has been a blessing from the Almighty, not only for myself and my family, but for fellow christians and non-christians alike. There are many moments, that the world around me is collapsing. But this station, is just a reminder that GOD is great, and HIS love endures forever. Without his Word, which is shined through this station, there is no hope. Please do not replace this station with a lpfm station. KLOVE has family friendly programming, wholesome values, and positive and encouraging impact on communities all across America. Plus I don't have to worry about my four and six year olds, and what impact will have on them if they are listening to this station. So please do not replace this station. Again, it has been a blessing from GOD, to everyone who turns on and listens. Thank you. The Viera family.
